

Chuckanut Builders is a Bellingham-based general contractor. We specialize in sustainable and high performance building in Bellingham's core neighborhoods. The majority of our projects are major residential remodels, small commercial tenant improvement projects and custom new homes. All of our projects are designed with building performance in mind.

We are part of the growing network of Bellingham businesses that embrace the triple bottom line and believe that work should be fun. We have made it a priority to bring together a crew that is committed to sustainable building and who enjoy the challenge of helping our clients reduce their carbon footprint.

Our hope is that our crew looks forward to coming to work (at least most days!) and that our employees have the opportunity to grow professionally within the business. We are climbers, skiers, backpackers, gardeners, and kayakers and our passion for these endeavors carries over into our professional lives and the work environment we have created together...and we're looking for an individual who wants to join us in this work.

The big picture

- We're hiring for **two positions**, one **skilled/finish carpenter** and one **site superintendent** with strong carpentry skills.
- We are looking for individuals that share our interest in high performance buildings.
- Personality fit with company culture and aptitude for learning new skills are more important than hard skills. We're willing to train the right person.

Finish carpenter

A high level of craftsmanship is required for this position. You will be on jobs from start to finish, expect all phases of carpentry from framing to finish trim, with an emphasis on finish work.

Finish carpenter preferred skillset

- Being tech savvy is a requirement at Chuckanut Builders. You must be able to manage an online calendar and respond to email professionally.
- We expect a tidy jobsite and clear, timely communication.
- You need to be confident fielding subcontractor and client questions when the site superintendent isn't onsite.

Site superintendent

Our site superintendents are the face of our company. It is important that you are comfortable talking to clients and that you're willing to use spell check. With the support of a project manager you'll see jobs from start to finish and have a great deal of autonomy and ownership over your projects.

Site superintendent preferred skillset

- Site superintendents are frequently the most skilled carpenters on our jobsites. This is a *bags on position*. You should expect to work in the field daily while also managing subcontractors, ordering materials and taking phone calls.
- There are always distractions, fires to put out and changing schedules, you must love cat herding and be able to take this in stride and enjoy it.
- You'll need to be tech savvy to succeed in this position. We use a (simple) cloud based project management system and expect you to manage an online calendar and professionally respond to email.
- Tidy jobsites and clear, timely communication are our benchmark and all of our site supers are charged with ensuring these standards.

Employment details

- Both of these positions are full-time, year round and will start in January.
- Pay is commensurate with experience and includes benefits (health insurance and paid time off).

To apply

Send a letter of interest and resume to jenny@chuckanutbuilders.com with site superintendent or finish carpenter in the subject line. We are actively reviewing resumes and will start interviews in early January 2018.
