

Bellingham building resources

Thanks for contacting us about your project. Chuckanut Builders specializes in major home remodels and new construction projects, with a specialty focus on building performance (aka green building). Most of our projects are located within Bellingham city limits.

Chances are, if you're reading this, your project either doesn't fit within those parameters or our schedules line up. The good news is that there are lots of skilled builders in Bellingham who might be a better fit for your project! We put together this list of building professionals who work in a broader geographic area than we do as well as folks who specialize in smaller scale projects. As a disclaimer, we haven't worked with everyone on this list, but they're on this list because we've heard about them from someone we trust or because we have worked with them.
